

# AFRICA WATER PROJECT

## Capstone Preparatory School Eldoret Kenya

Project Co-funded by: McIntosh Perry Engineers, Canada

Aerial view of Capstone Preparatory School

School water-well before construction of water pump and purification system

Davis & shirtlif leading water pump suppliers in East Africa were contracted to install the water system at the Capstone School

Rev. Joseph Kiirya, River Jordan Ministries Canada, recieves the water purification system from Davis & Shirtliff Sales Representatives

Water purification system before installation

Kids at Capstone Preparatory School  
excited about clean water

Water purification system fully installed and functional

Joseph & Mark hand over the water-well to the School administration

The 6000 Little water tank now named "McIntosh Perry" towers at the Capstone Preparatory school in Eldoret Kenya

Water tank, Solar powered water pump and state-of-the art water purification system installed and fully functional

Celebrating the new water system

The Capstone family bids farewell to the Canadian team (Joseph, Mark & Cathy)
